

In order for the library to make your work available in electronic form, you must complete the [digital archive deposit license and upload your thesis](#), preferably as a pdf.

The library does not govern matters of style and formatting. Students and their faculty advisors can determine the best manner of presentation. The most essential elements for inclusion, beyond your name and the title of the work, are the names of the faculty advisor and second reader. Please see sample title and acceptance pages below for reference.
